

NOTICE TO ESTABLISHED PATIENTS

The Bedminster Eye staff understands how time consuming and unpleasant it is to complete the required paperwork when you arrive for your appointment.

Please print and fill out the forms listed below and bring them with you so that we can expedite your appointment. If you wish, you may also email the forms to info@bedminstereye.net.

If you are an **Established Patient** – and have been seen in our office within the last three years - you only need to complete the following forms annually*:

- ✓ Medical and Family History
- ✓ Review of Systems
- ✓ Medication List [only if you do not have your own list]

Unfortunately, patients who fill out their forms in the office may be significantly delayed with their visit.

* Any changes to your demographic information and/or insurance coverage will require additional forms to be completed.

Cancellation Policy

Our goal is to provide quality health care to all our patients in a timely manner. Noshows, late arrivals, and cancellations inconvenience not only our providers, but our other patients as well. Please be aware of our policy regarding missed appointments.

Appointment Cancellation

When you book your appointment, you are holding a space on our calendar that is no longer available to our other patients. In order to be respectful of your fellow patients, please call our office as soon as you know you will not be able to make your appointment.

If cancellation is necessary, we require that you call at least 24 hours in advance. Appointments are in high demand, and your advanced notice will allow another patient access to that appointment time.

Late Cancellations/No-Shows

A cancellation is considered late when the appointment is cancelled less than 24 hours before the appointed time. A no-show is when a patient misses an appointment without cancelling. In either case, we will charge the patient a **\$50.00** missed appointment fee.

For new patients' first appointments, a no show or late cancellation will result in a full charge of the new patient fee.
